Total	\$103,448,624.00					\$103,448,624.00 check

Comments:

1. Cost of Land Purchase is assumed at \$150,000 per Acres
2. School programming needs (Ed. Specs.) will not be met in this scenario.
3. Cost impact for the monies already reimbursed to the Borough by BSF is not taken into account.
4. Estimated is based on construction to begin in fall of 2012.
5. High School Standard for Site: Base of 15 acres plus 1 acres per 100 students - 1,311 students = 13 acres - 15 + 13 = 28 acres.
